SUMMARY

- Each shelf is 14 in wide, 2 in thick
- Total width 104 in (8 ft 8 in)
- Shelf bottoms at 30 in · 45 in · 60 in · 75 in up from the floor
- Top of the top shelf at 77 in (6 ft 5 in)
- Bottom to bottom, shelf to shelf: 15 in
- Across: 13 in · 28 in · 43 in · 58 in · 73 in · 88 in · 103 in from the right end of the wall to each middle

Mark the height at ONE spot, then draw a level line across — floors aren't flat. Check each piece with the level as it goes up.

DumbLevel does math. It can't see inside your wall. Before you drill: check for wires and pipes (a detector is about $20), don't drill straight above or below an outlet or switch, and follow the instructions that came with your hardware.

Pro tip: measure twice, drill once.
